

Site Conditions Questionnaire

(Main Contact) Name: _____

If your project involves multiple areas with different site conditions, then you should complete a Site Conditions Questionnaire for each area.

Name of Area (Front foundation, backyard garden etc.): _____

When completing this part of the questionnaire please take your time and consider your answers. The more accurate the information you give us, the better we will be able to select plants that will work in your landscape project for years to come!

Take some time and see what the light conditions are in the area of your landscape project and please check the box that is best represents the light exposure in the area of your landscape project.

- Full Sun:** 6 or more hours of sun anytime during the day. These are usually on the south and west sides of homes unless shaded by trees or structures such as a house close by.
- Part Sun:** These areas are more sunny than shady, and will have lightly filtered sun or 2-5 hours of afternoon sunlight. Often these are found on the west side of a home and under trees with morning shade.
- Part Shade:** These areas are more shady than sunny and will have lightly filtered sun or 2-5 hours of morning sun. Usually found on the east side of homes and under the light shade of trees.
- Full Shade:** These areas have less than 2 hours of sun anytime during the day and are usually found on shady north sides of homes, between homes or under trees with heavy shade.

What are the soil conditions in the area of your landscape project?
